At Kooskia, Camp and her students will use tools such as ground penetrating radar, electromagnetic resistivity surveys, and soil chemistry analysis to locate internee gardens not depicted in camp photographs. Rape and sexual violence are common features of internment, both as forms of torture and coercion, and as a result of the increased vulnerability and dependence of the internees.

Subjects Archaeology--Case studies. Manzanar National Historic Site. Postiglione eds. Mason, Andrea Clark.

The archaeology of internment is an emergent interest area that builds on well Press, Farmingdale. Although most of the buildings at the facilities where Japanese Americans were incarcerated during World War II were demolished, dismantled, or moved after the war, archaeological studies have documented the traces of structures, lost artifacts, and abandoned landscaping features that were left .
