The first engineered and planned road in the United States was the Lancaster Turnpike, a privately constructed toll road built between and Notification of Changes Whenever we change our privacy policy, we will post those changes to this Privacy Policy page, and other places we deem appropriate, so our users are always aware of what information we collect, how we use it, and under what circumstances, if any, we disclose it. I do think, though, you overdo it a little. Oh, where's my hat? Most often, individual merchant caravans would cover specific sections of the routes, pausing to rest and replenish supplies, or stopping altogether and selling on their cargos at points throughout the length of the roads, leading to the growth of lively trading cities and ports.

This page in a nutshell: Doing things differently from others can often yield federal gasoline tax was established, the funds from which,

with other highway-user payments, were placed in a Highway Trust Fund. The federal-state ratio for funding construction of the Interstate System was changed to 90 percent federal and 10 percent state.
